

## Introducing the All New Agri-Frame by RediFrame

Dunbarton has designed a frame in buildings in the Agriculture Industry. The pre-hung unit is designed to be reversible and rust-resistant. Great to be used for livestock confinement building and other farm buildings.

## **DOOR DETAILS:**

- 24 Gauge Flush door
- Hardware preps to match frame (4" hinge and ASA strike)
- Door sweep installed top and bottom
- Factory finished in Bright White
- Door is factory pre-hung in frame, ready for assembly

## **FRAME DETAILS:**

- Adjustable frame profile for walls between 4" - 5"
- Kerf profile for snap in weatherstrip (supplied)
- Frames are 18 gauge with A40 galvannealed zinc coated steel
- Factory finished in Bright White
- Reversible frame design that can be used for both hands
- Both top and bottom composite sill designed for Agriculture
- Rot resistant
- Available in 36" wide by 84" height
- Frame and door are prepped for 4" hinges and ASA (4-7/8") lipped strike
